

# THE STATS

Child Poverty - Coventry's 'statistical neighbours'

The chart above compares the number of children dependant on workless benefits in Coventry to other local authorities who are considered by the Audit Commission, the local government 'watchdog', to be Coventry's statistical neighbours. Coventry's performance is in the lower middle quartile, and **3 percentage points** above the median value.

The map below shows the areas within Coventry that have higher than average rates of child poverty:
