Urban Traffic Management & Control (UTMC)

What is it?

- UTC upgrades to provide bus priority.
- CCTV cameras to monitor congestion and enforce moving traffic offences.
- VMS to alter traffic movement
- RTI at bus stops.

Urban Traffic Management & Control (UTMC)

Why?

‘To Ensure the expeditious movement of traffic across the city and the region’

Source: Traffic Management Act 2004

How?

By creating a ‘Modal Shift’ from car use to the use of public transport.

Urban Traffic Management & Control (UTMC)

How much will it cost?

- Project Budget £6.605
- Primelines £3.800
- Bus Showcase £ .300
- Local Transport Plan £ .805
- Section 106 £ .320
- UTMC Major Scheme £1.380

Urban Traffic Management & Control (UTMC)

What will we get?

- Common Database
- 24/7 Traffic Management Capability
- 400 + Traffic Lights & Pedestrian Crossing Controllers
- Up to 52 CCTV Cameras
- Up to 22 VMS Sign
- 175 Bus Stops providing Real Time Information
- Web enabled traffic/transport information

Urban Traffic Management & Control (UTMC)

How will it make a difference?
